

EARN YOUR CERTIFICATE IN COMMUNITY-BASED ENVIRONMENTAL MONITORING

Our Environment is Integral to our Community and the Legacy we leave behind.

Earn the qualifications and credentials you need to begin your career in the Environmental sciences with theory and practical training using Indigenous Science and Knowledge with Western Science. Upon completion of this 9-month program, graduates may find employment with Nations/Communities, Indigenous owned and operated environmental companies, environmental consultants, industry employers, become an environmental entrepreneur or further their education in the environmental sector. This will be the final cohort funded by TCETSA.

Admission Requirements:
Minimum 18 years of age as the first day of classes.
Grade 10 English and Math or equivalent (including GED or Placement Assessment)

The Program will be delivered at University
nuxethot'jine thaa?ehots'j
nistameyimâkanak Blue Quills, St. Paul
